

Dear Sir, Dear Madam,

It is our pleasure to contact you and try to create ties of cooperation. Just like other Algerian universities and higher education institutions, the University of Ghardaia (PIC: 932844539), implements new strategies to make graduate students marketable and quickly employable. As a matter of fact, we would wish to equip our students with high quality training through international projects such as the European cooperation projects offered in the erasmus+ programs.

Accordingly, the university center of Ghardaia, adheres fully to all possible cooperation programs, particularly those offered by EU such as International Credit Mobility programs of Erasmus+.

Looking forward to establishing cooperation with you.

Kind regards.

Mahfoud BAKLI, PhD

Associate Professor in Biology

Erasmus+ Institutional Coordinator

Vice Rectorate for External Relations

**University of Ghardaia
Po Box 455, Scientific Zone, Bounoura
