**Subject:** job shadowing in Latvia

To whom it may concern,

I'm an English teacher, I teach in a middle school in Italy (Scuola Media Guardi in Piombino, Tuscany). This year my school has been included in the *Erasmus+* Programme and two teachers will be granted the possibility of a 2 weeks job-shadowing in an European country involved in the programme. I'm interested in Latvia because the people's mothertongue there, as well as Italian, has little to do with the anglo-saxon family and would like to witness how the latvian teachers tackle the challenge of bringing pupils closer to a "very foreign" language.
