**Subject:** RV: CONTACTS FOR ERASMUS +

Good morning.

We are an association in Zaragoza (Spain) that has been working for 60 years for the social inclusion and quality of life of people with intellectual disabilities, autism spectrum disorder, acquired brain injury, borderline intelligence and their families, offering comprehensive care (diagnosis, early and post-early care, education, leisure time, training, occupation, social and labour insertion, housing, residence, ageing) throughout the whole life itinerary.

We serve 3,000 people with a professional team of 450 people with different professional qualifications.

We have recently been approved 2 Erasmus + projects, one for school education and the other for adult education, both with people with intellectual disabilities.

We would like to access a database of special education schools or associations of people with disabilities, with experience in European programmes and interested in mobility projects and sensitized to the insertion of these people in society. Especially in the processes of transition to adult life (last stage of the special education centre from 16 to 21 years old) and in training itineraries for people with adult intellectual disabilities with a view to their correct insertion in the labour market.

We look forward to hearing from you. Thank you very much, health and peace.

***José Ramón Roldán Martínez***
